# Theme Details

Theme name                      Transparent (based on Transparent)

Platform                              DNN5

Date generated                      2012-21-12 17h55m

Customer email                      mail@bind.pt

# Installation

## Files available for download

Your custom theme includes the following files:

Transparent.DNN5.zip

*This is the installation file*

Transparent.DNN5.SetupGuide.pdf

*Current documentation file*

## Before Installing

Prior to installing your theme, confirm you have js, ashx, dll, ttf, otf, eot and woff as allowed file extensions.

Go to: Host » **Host settings** » Advanced settings » Other settings » **File upload extensions**

If these extensions aren't in the list, add them separated by commas. Update.

You also need to ensure the usage of the correct doctype. Go to Host » **Host Settings** » Host Details and select: **Fallback Skin Doctype – XHTML 1.0 Transactional** Update.

## Installing the theme

We strongly recommend the use of stable DNN versions.

Your installation file is **Transparent.DNN5.zip**

1. Login to your DNN site using a host account
2. For **Portal level install** (available to this portal only) go to Admin » Extensions
3. For **Host level install** (available to all portals in DNN) go to Host » Extensions
4. From the menu inside the page select "Install Extension Wizard"
5. "Browse" your computer to select the appropriate skin to install (Transparent.DNN5.zip)
6. Click "Next", and follow all steps until installation is completed
7. Check if installation was successful. You're done!

## Applying the theme

1. To apply the theme to your entire website, go to page Admin » Site Settings
2. On the "appearance" section you can define the default portal skin and container, as well as the admin skin and container
3. Theme can also be applied to a specific page or container.

# Trial themes

For more information on downloading trial themes, please read our knowledge base article:

<http://support.bind.pt/entries/22356848-how-can-i-request-a-trial-theme>

# CSS Compression

This theme is delivered with **compressed CSS files**, for **performance improvement reasons** (making websites load a lot faster).

Next to each **skin.css** file you will find a **skin.uncompressed.css** file. In case you need to edit your CSS, or if you just don't want it compressed, you can rename it and use it, instead of the compressed version.

This theme includes several other CSS files (for containers mainly). Uncompressed versions will be sent upon request.

# Troubleshooting

Our themes are extensively tested. Nevertheless, as with any software product, occasional issues may occur. Here we list the solution for some common ones.

Set left vertical menu to display top menu's child pages

Rotating banner is not displaying in DNN5

Adding custom flags in language area

Content overflows my page's width

Web fonts are not being rendered

I still didn't receive my custom theme, what should I do?

How do I get an update for my theme?

For other troubleshooting topics visit our Knowledge Base at <http://support.bind.pt>

# Customer support

BIND is proud to deliver excellent support service to its customers. You can access support in multiple ways, described below.

Before contacting our support service, please read our [Error! Reference source not found.](#)

## Standard support

### Bind Tuning Knowledge Base

Our knowledge base is an excellent resource when you need support. Access our team's articles with solutions to common questions or to issues previously encountered by others. Suggest further enhancements to our products by posting your ideas, or vote on other users ideas.

Please note that our knowledge base is a resource for search and community sharing. Other options are available for urgent support.

To access the forum please visit <http://support.bind.pt/forums>

### Bind Tuning Helpdesk

You can also choose to post your questions and suggestions directly to our support team, through our helpdesk system.

Your question will be reviewed and forwarded to the proper department.

Always remember to mention your invoiceID when submitting a new support ticket. You should receive an answer in less than 24 hours.

To access the forum please visit <http://support.bind.pt/tickets/new>

## Premium Support

- Theme installation / upgrade
- Manual theme adjustments and customization
- Further changes to themes
- Premium support is required beyond 60 days after purchase

For further information on Premium Support please visit [www.bind.pt](http://www.bind.pt) or email us at [mail@bind.pt](mailto:mail@bind.pt).
